THOMASVILLE ORPHANAGE.

Thirteenth Anniversary Celebration Held Yesterday.

The thirteenth anniversary of the Baptist orphanage was celebrated in fitting style yesterday. A large crowd of people, probably two thousand, attended the exercises, which were highly entertaining. From a special to the News and Observer we take the following account of the proceedings:
Rev. Henry A. Brown, D. D., of Winston, one of the ablest preachers of North Carolina, more than sustained his reputation in the splendid sermon he preached. It was the plain old gospel story, but it was told with marvelous simplicity and great tenderness. It reached and stirred the hearts of the vast multitude that crowded every inch of the magnificent auditorium.

The songs of the children and especially those of the little people of the nursery were especially pleasing and elicited rounds of applause.

In the afternoon Hon. C. B. Aycock, of Goldsboro, addressed the audience on "Heroism at the Home" in which he showed that great as are the splendid achievements of the Americans by land and sea, there are grander victories won every day in the thousands of homes in North Carolina, and they are won by the mothers of men, and that the true hero or heroine is not the soldier who stands undismayed under the fire of shot and shell, but it is he who faithfully and patiently performs the duty that lies next to him.

It was a splendid address, most happily conceived and delivered with great force. It was an earnest and fervent appeal for higher and nobler living, and Mr. Aycock was advised by more than one to quit the law, great as has been his success there, and go into the ministry. It was exactly suited to the occasion and more than met the expectation of his friends.

The trustees of the orphanage were in session all day Tuesday and re-elected all the present officials. Hon. W. E. Daniels, of Weldon, tendered his resignation as trustee and Mr. S. McIntyre, of Lumberton, was elected to succeed him as trustee, and John E. Ray, of Raleigh, was elected to succeed the late Dr. R. D. Flemming and Mr. K. W. Brooks, of Greensboro, to succeed the late Mr. J. L. Markham. These are all capital selections. They are laymen and practical business men.

The reports of the general manager and the treasurer were excellent. The board is delighted to find the institution so well managed. There are 166 children present and they are very thoroughly drilled in both mental and physical exercise.

General Manager Boone with his wife has brought the institution to a high degree of efficiency and they have surrounded themselves with competent and faithful teachers and matrons.

Several improvements are soon to be made here, chief among which is a system of water works. At present the institution is supplied from springs, but the physician and the general manager urged the board to provide a supply of filtered water, and a committee was appointed to take the matter under consideration.

It is hoped also that another nursery building will soon be added, as the present building is too small for the more than forty chaps between five and eight years old now gathered there.

The outlook before the orphanage is more hopeful than ever before. The institution is the pride of the denomination, and while the contributions through the past year were large and liberal, greater prosperity is expected through the year to come.

Accident at China Grove.

The Salisbury Sun says a colored man named Geo. Hones was killed by a Southern train at China Grove last Monday night. He was run over by a portion of the train, his head split open and one leg cut off. It is thought the negro was asleep on the end of a sill when the train struck him. He was about 22 years old.

Charleston Expedition Gets to Sea.

Charleston, S. C., July 21.—The expedition which started for Porto Rico Wednesday evening, finally got to sea today. The Grand Duchess and No. 30, with General Wilson and the Second Third Wisconsin Regiments, spent the night of Sunday. At 8 o'clock the tugs took them through the jetties. It was not until 8 o'clock tonight that they were followed by No. 21, carrying the Sixteenth Pennsylvania and two companies of the Sixth Illinois. The work of loading the last named vessel went busily forward all day. Some trouble was experienced in getting the 1,000 mules aboard, but otherwise the work was done rapidly and without the least accident. The men of the Sixteenth were most enthusiastic over the chance of shortly seeing active service in Porto Rico, and they were given an enthusiastic cheer by thousands of people who were assembled on the wharves.

ALGER EXPECTS BIG NEWS

By the First of Next Week from Porto Rico

GEN. GARCIA ISSUES A DECREE

Orders the Cuban Recruits to Return to Their Farming Operations—May Disband Cuban Forces.

By Wire to THE TELEGRAM.

Washington, July 22.—It is officially given out this morning that General Miles is on his way to Porto Rico having cleared yesterday afternoon, under a strong convoy. Secretary Alger says he expects to hear big news by the first of next week. Preparations for the second expedition are being rapidly pushed.

No corroboration of the report that Watson's fleet has been disbanded can be found. No definite answer has been had either affirmatively or negatively, and it is believed that Watson will have Schley as second in command and that the expedition will be started at the earliest possible moment.

GARCIA ISSUES A DECREE.

Santiago, July 21.—Delayed—The greater part of Gen. Garcia's army leaves at daybreak tomorrow. Garcia issues a decree authorizing all Cubans to return to work on their farms and plantations, assuring them protection by his forces. He also adds permission to those in his ranks who were from the farms recruited to return. His actions justify the impression that he means to disband the Cuban forces.

AGUIBALDO'S DECLARATION.

Washington, July 22.—The following dispatch was given out this morning by Adjutant General Corbin:
"Aguinaldo declares dictatorship and martial law over all the Philippine Islands, and the people expect independence."
(Signed) ANDERSON.

TROOPS EN ROUTE.

Washington, July 22.—Two hundred officers, five thousand and one hundred men and one hundred and fifty freight cars left Chickamauga this morning for Newport News and will probably embark by tomorrow evening for Porto Rico.

PEACE, HONORABLE PEACE.

Madrid, July 22.—Ganazo, Minister of public instruction, authorizes the statement that peace, honorable to Spanish arms, will shortly be concluded.

THE SPANISH SQUADRON.

Gibraltar, July 22.—It is now assured that Admiral Camara's fleet is coming to Ceuta.

HOISTED AMERICAN FLAG.

American Transports Take Possession Of One of The Group.

Hong Kong, July 21.—Letters received from Cavite, dated July 18, say that the American transports have hoisted the American flag on an island, supposed to be Wake Island. General Aguinaldo has organized the following personnel:
President of the Council—General Aguinaldo.
Secretary of War—Baldimiro Aguinaldo, nephew of Gen. Aguinaldo.
Secretary of the Interior—Leandro Ibañeta.
Secretary of State—Mariano Trias.

A Cavite letter, dated July 17, says that General Anderson has quartered the California battalion at Paranaque, several miles from Manila. The blockade is effective, and mails are not allowed to enter Manila except by warships.

Aguinaldo's Cabinet Sworn In.

London, July 22.—The Hong Kong correspondent of the Daily Mail says: "General Aguinaldo's cabinet took the oath of office at Bacoor, on Sunday, in the presence of 5,000 natives. A fireworks display followed. Aguinaldo is restless under American restraint and wants to capture Manila. United States Consul Williams, who is at Cavite, has written to United States Consul Wildman here, strongly urging him to come to Cavite and reason with General Aguinaldo, with whom he has great influence. Mr. Wildman may start at the end of next week.

Learning the Language.

Florida Times-Union: "The officers of the Second Virginia regiment are attending a school for the purpose of learning the Spanish language. Professor Aragon, late of Harvard College, is instructing them."

The probability is that the officers of the Third Virginia regiment will also make a study of this language.

THE FREMEN'S TROUBLE.

Extract from President McNeill's Letter to Chief Stone.

We wish to disclaim any intention to unjustly criticize the railroads of the state in our article of yesterday on the refusal to grant the usual courtesy of free transportation of apparatus, etc., to the firemen's tournament at Goldsboro. That what we said was entirely just, we think the facts will amply show. We quote from Mr. McNeill's letter of the 21st to Mr. Stone: "On July 8th I received notice that the free transportation courtesy would be gladly extended to us, etc., and gave notice accordingly to all departments. Now, at this late date, I am notified that the laws of the state prevent the railroads from granting this courtesy and that they will be compelled to charge full rate on all apparatus."

It is not to be for a moment presumed that the railroad authorities have remained ignorant for eighteen months of the laws governing them. The courtesy spoken of was granted the fire boys a year ago, and there hasn't been a law enacted in North Carolina since the legislature of January and February, 1897—eighteen months ago. If it against the law now it was against the law a year ago.

The railroad commissioners are merely judges—not legislators. They have no power to make, alter or amend laws. From whence then, sprung this new law between July 8th and July 21st? The fire boys are entitled to the highest consideration, and it is our duty to say they have not been fairly dealt with. They have been allowed to get everything in readiness, believing the usual courtesy would be extended, and three or four days before the tournament meets the "courtesy" is withdrawn.

That they have the right to withdraw it we do not question; but we do say that it was unjust to the fire departments to lead them to believe the courtesy would be granted, and at the last moment notify them it could not be done.

Admiral Dewey has asked for 60,000 pounds of soap. Is he going to give the Spaniards at Manila a good lathering?—Danville Register.

LIEUT. HOBSON IN NEW YORK

He is Tendered an Enthusiastic Impromptu Reception.

CARRIED IMPORTANT MESSAGES

Secret Communications to the President—Also Sampsons Report of Sinking Cervera's Fleet.

By Wire to THE TELEGRAM.

New York, July 22.—Lieutenant Richmond Pearson Hobson arrived here this morning very unexpectedly on the cruiser St. Paul. He brings the most important messages received here since the late stirring scenes at Santiago. Sampson's report of the sinking of Cervera's fleet, the capture of various ships by the fleet and secret messages for President McKinley are in his custody. Not until Hobson stepped on deck of the St. Paul, shortly after 9 o'clock to take a boat for the shore, did his identity become known.

As he stepped ashore one of the most enthusiastic receptions ever given to a war hero greeted him. The officers and crew of the Newport threw discipline to the winds and crowded about the dock, mingling with the hundreds of citizens who had got news of his arrival, and there was much cheering and many congratulations for the most daring hero of the war.

Hobson left shortly after his arrival for Washington.

ITALIAN WARSHIPS ON THE PATH

Italy is Trying to Collect Indemnity from Columbia.

By Cable to THE TELEGRAM.

Rome, July 22.—The Italian warships Piemonte and Dongali have sailed for Lisbon, but the real destination is not known. It is believed, however, they are bound for Columbia. It is stated that Admiral Candiani has been authorized to bombard and occupy Cartagena, one of the most important cities in the United States of Columbia, and one of the oldest on the Western Hemisphere.

While under Spain this city was one of her most important strongholds. The claim of Italy grew out of the damages sustained by Italian citizens in the revolution of 1896. The claim for indemnity was referred to President Grover Cleveland in 1895, and a decision was rendered in favor of Italy, and since that date Italy has been trying to collect the indemnity.

DEWEY'S WRECKS.

Condition of the Warships Sunk in Manila Bay.

New York, July 21.—A correspondent of The Journal, writing from Cavite, Manila, July 17th, relates the result of an inspection of the hulls of the Spanish warships sunk in Manila Bay by the squadron of Admiral Dewey. The cruiser Reina Cristina shows the most complete destruction. The course of the Olympia's 8-inch shell is clearly traced by a line of ruin extending from her stern to her waist. All her wood work is totally destroyed. There are very large shot holes through her hull, the principal ones being from a 6-inch shell amidships and from some 4-inch shells. Charred human remains were seen in several places. A large heap of remains near where the ladder stood shows that a rush to escape was made by the engineer's force. All were lost, and the hatches to the engine and fire-rooms were closed.

The Don Antonio de Ulloa did not burn. She sank quietly, riddled by shells of all sizes. The greatest havoc was done by the 6-inch shell. A number of dead bodies, all huddled together near the leading to the superstructure, shows that the men were killed by a shell as they were attempting to lift the treasure chest to the superstructure to save it.

The cruiser Castilla was less burned but was terribly wrecked. There are plain traces where six big shells tore immense holes in her wooden hull. When the fire started the weight of the guns caved the hull inward. The warship is now a mass of twisted iron and charred beams, a very bad wreck, resembling that of the Maine, in appearance. Everything aft from the engine-room was shattered. Three large shells entered amidships. The number of deaths was not so large as on the Reina Cristina.

Check Your Dog.

Notice to all owners of dogs in the city: You are hereby notified to call on me or any one of the police officers and procure a check for your dog, which will cost \$1.00. All dogs found in the city that belong here without the proper check on will be impounded and shot after August 1, 1898.

THE DECREE ANNULLED.

Haytian Government Complies With A French Demand.

By Cable to THE TELEGRAM.

Port au Prince, July 22.—It is reported here that the Haytian government has complied with the demand of the French government for the withdrawal of the decree of expulsion which was recently issued against Madame Hermance, a French subject residing in Port au Prince.

The decree of expulsion was issued on the grounds that the person is dangerous to the public security after the conflict with the wife of the President in the cathedral over the possession of a chair. The decree of expulsion will be annulled, thus closing the incident.

Not a Ten-Center.

It seems that Linney's men regarded old man Stamper, of Alleghany, as a kind of a "ten-center." He says they approached him and offered him \$200 for his influence and vote. He replied by drawing a shooting instrument and the Linney man retired briskly and offered to fall on the bosom of his boss and breathe his life out sweetly there, rather than risk any further the hazardous business of looking up additional "ten centers" for Linney's benefit. This all happened during the republican convention last week.

Train Robbers Repulsed.

By wire to THE TELEGRAM.

Fort Worth, Texas, July 22.—A southbound Santa Fe train was held up near Saginaw last night by six men. They were repulsed by the train crew, but the whole party escaped. The conductor was fatally wounded.

Mrs. Rev. T. J. Ogburn, of Sumnerfield, who suffered almost incessantly with headache, said incidentally in a recent letter: "My glasses have been a perfect relief. It is a sure sign that they are not what is needed.

PURCHASE TAX.

There is one item of taxation which we have always believed to be unjust and that is the purchase tax which the merchants are required to pay. It simply amounts to double tax or making the merchant pay tax twice on the same article or articles.

The merchants are required every six months, we believe it is, to make out and return a sworn statement of their purchases for the preceding six months and based on this return they are required to pay a tax. Then the list taker comes along in June and they are required to list their full stock of goods for taxation again. But, it may be argued, he has sold as much, probably, as he returned in his purchase tax list, and consequently has not, in stock, the goods on which he paid the purchase tax and only lists for regular taxation what he has left.

It may be argued that a merchant who carries a ten thousand dollar stock and who lists for taxation that amount in goods every June, may buy and sell in the interim between the month of June this year and June next year, goods to the amount of twenty thousand dollars and without the purchase tax system all this would escape taxation.

Let's see if this is so. Grant that he has bought and sold goods amounting to much more than he has in stock at the time of listing. What has he done with the proceeds? He has either sold the goods for cash or he has sold them on time to parties he believes will pay for them. If he knows they will pay him, or has security by which he can force payment, he has a list of what is known as solvent credits. The amount of this he is required to "give in" to the list taker, and here he pays a tax.

If he has sold the goods for cash and hasn't invested that cash in other goods, which are on his shelves and counters, he has the cash on hand or in bank. To the amount of these items he is also required to make oath before the list taker, and here he pays a tax.

If he has invested the money in stocks or bonds, he is required to swear to the amount and here he pays a tax. He is cornered any way, without the purchase tax system. We sum it up this way:

He must pay the tax when he buys the goods. If he doesn't sell them he must pay a tax on them again. If he does sell them he must pay a tax on the proceeds. A buying tax, a selling tax and a tax "whether or no."

All taxes should be laid without discrimination. A drummer comes into the city, sells a merchant three thous-

and dollars worth of goods and is only required to pay his hotel bill, while the merchant is required to pay—in addition to freight—a purchase tax on the goods bought.

A great deal has been written and said about equalizing the burdens of taxation, but the desired reform is yet a long way off in the dim and misty future.

The Charlotte News says: "The price of this paper, ten cents a week, is low enough to enable everybody to subscribe for it. Two glasses of soda water, two cheap cigars, two bundles of chewing gum, two packs of cigarettes will send it to you for a week." Are you not getting reckless, brother? We, too, will take a limited number on the soda water proposition if they come while this weather lasts, and would not object to a few cigars if they are fairly good smokers and we are satisfied they were not bought two-for-five; but we draw the line on chewing gum and cigarettes.

Editors Davis & Morrison have disposed of the Winston Journal to the Journal Publishing Company, and will be succeeded in editorial management by Col. Garland E. Webb. It is with genuine regret that we lose Messrs. Davis & Morrison from the newspaper field; they have kept the columns of the Journal bright, and have been untiring in their efforts to collect and print the news. While we express regrets at giving them up we salute the new editor and wish for him abundant success.

The fact that Hon. W. W. Kitchin was too unwell to attend the democratic convention here yesterday is greatly regretted. It would have done him good to have seen the perfect harmony and good feeling with which the convention did its work, and to have heard the spontaneous shout from the delegates as they to a man rose to their feet to nominate him by acclamation.

That was a hard blow Capt. Walters struck the fusion crowd yesterday when he said the eight negro members of the last Legislature were the most respectable men in that body outside of the democratic members. But he said it and says he will stand by it.

Blockade Runner Caught.

Key West, Fla., July 21.—The British steamer Newfoundland, loaded with food supplies, was captured by the Mayflower on Tuesday, off Cienfuegos, into which harbor she was heading. Two blank shots across her bows brought her to, and the Mayflower put a crew on board of her, and sent her into Charleston, S. C. The Newfoundland left Halifax, N. S., on July 9th. The Mayflower has on board five Cubans who were picked up at various times by the ships of the blockading fleet. They had fled from Havana and other Cuban ports to escape starvation, as the condition of affairs ashore in Cuba grows worse daily.

Lowest in Fifty Years.

New York, July 21.—The price of cotton on the New York Cotton Exchange today was the lowest for this season in fifty years. August delivery opened at 5.89 cents a pound, against 5.90 cents, the closing price on Wednesday, and under a general unloading by tired holders, declined rapidly to 5.79, closing at 5.82. In a week the price has gone down 1 cent a pound. The lowest recorded price is 5.23 for December.

A GIFT TO FRANCE.

A Report That Spain Will Place Catalonia Under Her Protection.

London July 21.—According to a special dispatch from Madrid, Senor Sagasta, the Premier, has again offered to resign, and has been counseled by the Queen Regent to advise with her political leaders relative to his future course. It is also reported that General Pavia's return to Madrid is closely connected with a change in the ministry, and that General Weyler will form a cabinet in which General Pavia will be Minister for War. This combination, it is further asserted, will support the dynasty, repeal the suspension of constitutional rights, and continue the war to the utmost limits.

Another Madrid movement announces that telegrams from Barcelona report a growing movement in favor of the intervention of France, and that steps are about to be taken to formally invite France to take Catalonia, of which Barcelona is the capital, and which has an area of over 12,000 miles under her protection.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrated me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I fortified myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. E. Holton.

Carlist Plots Afloat.

Madrid, July 21.—The police have searched the residence of several Carlists, and the result of their investigation confirmed that government's belief that a Carlist plot is afoot. It is expected that Carlist newspapers will be suppressed. The government continues to receive reports from the provinces of Carlist preparations. These are all of similar tenor, and tell of activity of Carlist juntas and secret distribution of arms.

ANIMALS THAT COUNT.
Instances That Prove Their Possession of the Computing Faculty.
Several years ago there lived in Cincinnati a mule which was employed by a street railway company in hauling cars up a steep incline. This animal was hitched in front of the regular team and unhitched as soon as the car arrived at the top of the hill. It made a certain number of trips in the forenoon (I have forgotten the number, but will say 50 for the sake of convenience) and a like number in the afternoon, resting for an hour at noon. As soon as the mule completed its fiftieth trip it marched away to its stable without orders from its driver.
To show that it was not influenced by the sound of the factory whistles and bells the following remarkable action on the part of this animal is vouched for by the superintendent of the line, who gave me these data: On a certain occasion, during a musical festival, this mule was transferred to the night shift, and the very instant it completed its fiftieth trip it started for the stables. It took the combined efforts of several men to make it return to its duty. At night there were no bells or whistles to inform the creature that "quitting time" had come. It had counted the trips, and having finished its full quota of 50 it thought that the time for rest and food had arrived.
Some monkeys give unmistakable evidences of the possession by them of the computing faculty. In 1889 I made the acquaintance of a very intelligent chimpanzee which could count as high as three. That this was not a trick suggested by sensual impulses I had ample opportunity of satisfying myself. The owner of the animal would leave the room, no one being present but myself, and when I would call for two marbles or one marble or three marbles, as the case might be, the monkey would gravely hand over the required number. Romanes mentions an ape which could count three, the material used in his experiment being straws from the animal's cage. Wolff, Darwin, Forbes and Hartman also give instances of the computing faculty in apes and monkeys.—James Weir in Lippincott's Magazine.

DEWEY AS A DISCIPLINARIAN.
His Method of Subduing Some Refractory Sailors.
"I was with Commodore Dewey when he was the executive officer of the Colorado," said a financier, "and I remember one incident which shows the manner of man he is. We had a fine crew, some of them as powerful men as I ever saw. Four or five of them went ashore one day and came back fighting drunk. "Three of them were men who would singly have been more than a match in strength for John L. Sullivan. The order was given to put them in irons, and it was found impossible to carry out the order, for the men were dangerous. Dewey was notified of the situation. He was writing a letter in his room at the time.
"He went to the place where these giants were and he told them to come out and submit to the irons. They did not stir. Then Dewey said quietly to an orderly, 'Bring me my revolver,' and when he had his pistols he again called upon the men to come out, but they did not move. Then he said, 'I am going to count three. If you are not out here with your hands held up on the third count, you won't come out of that place alive.'
"He counted one, then he cocked the revolvers, and he counted two. We all expected to hear the report, for we knew that Dewey meant what he said. The men knew it too. They stepped out just in time to save their lives and held up their hands, and they had been partially sobered by their fright and the moral effect of Dewey's glance.
"One of them said afterward that when he saw Dewey's eyes he knew that he would either be a dead Jackie in a moment or he would have to yield, and when the irons were put upon him he was as sober as he ever was in his life. Dewey went back to his room and finished the letter he was writing."—Philadelphia Press.

"The Lucky Duffs"
"The Lucky Duffs" is the title of an article in The English Illustrated Magazine in which Mr. J. M. Bullock traces the rise of the Duke of Fife, like a prince in a fairy tale, from a little farmer in the north of Scotland 200 years ago. One good woman of the house used to ride to market with a huge pile of plaiding, which she had spun from her sheep, in the crupper beside her and duly brought back its value in marks. These she stored in bags. On one occasion she banked her savings in a leather bag in the ceiling, but the rats got at it, so that the family dined amid a downpour of ducations. The family flourished so well that each of her three sons got an estate of his own—Patrik, the youngest, bringing 36 children into the world, while William became the father of the first Earl of Fife.
Queen Wilhelmina.
There is no longer any doubt that Wilhelmina, queen of the Netherlands, is engaged to marry Prince Bernhard of Saxe-Weimar, who is now 20 years of age and the second son of the late hereditary Prince of Weimar. The young queen has lately been in Paris seeing the sights and selecting a trousseau. Her dresses, rides in the Bois and goodness of face and character have been items of interest in the Paris journals. They deem it significant that she shops in Paris instead of Berlin and believe the future queen a valuable person to cultivate.
Thoughtful to the Last.
"Didn't your absconding cashier leave you any message?"
"Yes. He left a line in the cash box transferring to me his paid up membership in a Don't Worry club."—Chicago Record.

Fear Cook Won't be in it.
Washington, July 21.—It was intimated today at the war department that Colonel Cook's appointment as brigadier general will be announced within the next few days.
A number of letters have been received from friends of Col. Cook urging his immediate appointment. They are apprehensive that if the matter is much longer delayed negotiations for peace will be in progress and then he will be knocked out. There is a report tonight that peace talk is very strong in Madrid and that sincere overtures may be made at any moment.

Pritchard's Close Call.
Asheville, N. C., July 21.—United States Senator J. C. Pritchard left his home Sunday to attend court at Burnsville. It has just been learned that when crossing a swollen mountain stream his buggy was overturned and the Senator had a narrow escape for his life. He had an exhausting struggle with the flood, and his horse and buggy were swept away, and the Senator came to Burnsville bruised and moist and several ugly cuts, none of which were serious.

Blood Brains Money
A sick man can't make money. That's because his brain won't work. A horse won't do work unless he is properly fed. Neither will a brain. If the brain is not kept in good condition with pure, rich blood, it won't produce much.
Men who fail, and men who don't, often have what they call "Nervous Prostration." Nine times in ten the nervous trouble is purely secondary. The real sickness is in their digestion and in their blood. If a man keeps his digestion in good order, and keeps his body full of pure, rich blood, he is never going to be very sick.
Johnston's Sarsaparilla is made for people who want to get well and stay well. Sarsaparilla is a simple, "grandmother" remedy, but it cures. It purifies and enriches the blood and sends it tingling to every part of the body. That is the way it cures all ailments of the brain and nerves—cures insomnia—cures dyspepsia, rheumatism, scrofula, and every other blood disease. It clears the complexion, plumps out the cheeks, and brings back the sparkle to lifeless eyes.
One Dollar is the price, and One thousand Dollars is the health-giving value of every Quart of

Mr. and Mrs. E. P. Miller, of Winston, passed through last night returning home from a two weeks visit to the seashore at Wilmington.
The Misses Helen, who have been visiting the Misses Glenn on West Market street, returned to their home in Glenwood this morning.
Miss Anna Withers, of Reidsville, passed through this morning returning home from a visit to Brandon, Mississippi. She was accompanied by Miss Annie Busiek, of Brandon.

Give the Officers Their Share.
General Edward E. Bryant, of Madison, tells a story that fits in at the present time very nicely. There was a pious man in the crew of an iron-clad. He had been told one evening that in all probability the next day would witness a great battle. When he prayed that night he put special stress upon the plea that the vessel upon which himself and his comrades were serving might escape disaster, saying among other things: "O Lord, shield us from the shells and other projectiles of the enemy, but if any shells and solid shot do come to our vessel, I pray Thee that they may be distributed as prize money is distributed, mostly among the officers."—Chicago Times-Herald.

Blood Brains Money
A sick man can't make money. That's because his brain won't work. A horse won't do work unless he is properly fed. Neither will a brain. If the brain is not kept in good condition with pure, rich blood, it won't produce much.
Men who fail, and men who don't, often have what they call "Nervous Prostration." Nine times in ten the nervous trouble is purely secondary. The real sickness is in their digestion and in their blood. If a man keeps his digestion in good order, and keeps his body full of pure, rich blood, he is never going to be very sick.
Johnston's Sarsaparilla is made for people who want to get well and stay well. Sarsaparilla is a simple, "grandmother" remedy, but it cures. It purifies and enriches the blood and sends it tingling to every part of the body. That is the way it cures all ailments of the brain and nerves—cures insomnia—cures dyspepsia, rheumatism, scrofula, and every other blood disease. It clears the complexion, plumps out the cheeks, and brings back the sparkle to lifeless eyes.
One Dollar is the price, and One thousand Dollars is the health-giving value of every Quart of

THE POSTAL TELEGRAPH CASE.

Judge Simonton's Opinion Was Filed
To-Day.

Judge Simonton's opinion in the
Postal Telegraph Cable Company's
case was today filed in the clerk's
office of the Circuit Court. This case
was recently heard in Asheville, on a
motion by the Cable Company vs. the
Southern Railway to remand the cause
to the State court for trial.

In his opinion Judge Simonton, de-
clines to remand the cause, but holds
that it should be tried by the laws of
North Carolina governing such cases,
which latter ruling, the Postal Com-
pany claim, ensures their success in
securing the easement over the right-
of-way of the Southern and at a nomi-
nal cost to them.

eight games this season, winning all
of them. The Guilford College
boys will play a return game here on
Thursday next, and if the teams tie the
third game will be played at Guilford
College on Friday.
